DIPLOMA IN INTERACTIVE MULTIMEDIA DESIGN

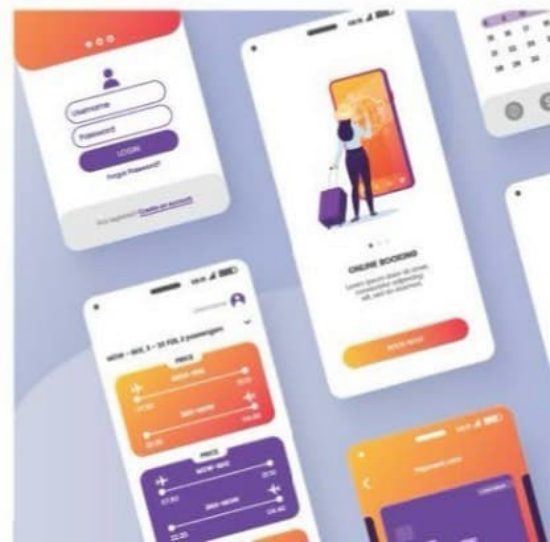

Diploma Kemahiran Malaysia (DKM)

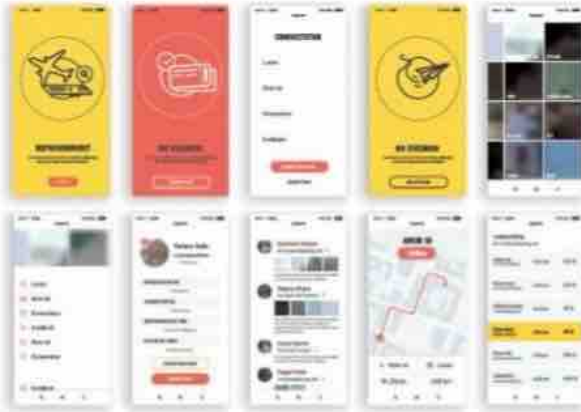

INTERACTIVE MULTIMEDIA DESIGN

Mobile apps, websites, games and social media are the new ways of how we work, shop, play, learn and interact with each other. But this is just the beginning. New technologies like virtual and augmented reality are going to transform and enhance human lives in near future.

There are huge opportunities to study interactive multimedia design. You will have the power to create new types of interactive content that are transforming our society and culture. This Diploma programme brings together technical and creative perspectives on interactive media. You will learn User Interface and User Experience (UI/UX) design, visual, animation, audio & video and interactive design for mobile apps, websites, games and social media platform. Develop your ability to analyse and assess impact of interactive design on individual and society as a whole.
